

Environmental Security in the Arctic Ocean

News

The book "Environmental Security in the Arctic Ocean" (Springer) documents the proceedings of the 2010 NATO Advanced Research Workshop (ARW) in Cambridge (United Kingdom) that was initiated and co-convened by Ecologic Institute. The partners were the Scott Polar Research Institute at the University of Cambridge and the Russian Academy of Sciences. In the book chapter "Transatlantic Policy Options to Address the Rapidly Changing Arctic," Sandra Cavalieri and R. Andreas Kraemer of Ecologic Institute present policy options for the EU and the US for addressing challenges in the changing Arctic, summarizing key findings of the transatlantic Arctic Transform dialogue.

The ARW and the book cover the full range of relevant topics. The book is available from [Springer](#) as an e-book, hardcover or paperback. The publication article [Transatlantic Policy Options to Address the Rapidly Changing Arctic](#) provides more information on the book.
